COMMENTS AND RESPONSES ON THE DRAFT EIR

Receipt of Comments

The California Environmental Quality Act (CEQA) provides the opportunity, during a specified public review period, for any person or entity to submit comments to a Lead Agency concerning any environmental effects of a project being considered by the Lead Agency. CEQA requires that the Lead Agency evaluate comments on the environmental issues received from persons who reviewed the Draft Environmental Impact Report, and prepare written responses for inclusion in the Final EIR.

If the Lead Agency determines that changes are warranted, revisions are made to the Draft EIR analysis. Revisions may also be made to the proposed project to mitigate anticipated impacts. The responses must provide detailed rationale with the recommendations and objections raised in the comments. In either case, CEQA requires good faith, reasoned analysis in responses.
