	2019-20	Notes
725		The city council of the city of American canyon has determined that the costs associated with processing major private development applications should not be borne by the community. All direct and indirect costs associated with processing major private development proposals or privately initiated annexations, Specific Plans, General Plan and Zoning Amendments or similar application shall be paid by the applicant. It is recognized that the city of American canyon staffing levels may not be adequate to process these private applications in a timely manner. The use of outside consultants to either augment city Staff for the processing and review of major development proposals or to prepare required special studies such as Environmental Impact Reports is in the best interest of the city and the applicant. The cost of these consultants shall be the responsibility of the applicant.
726		In order to ensure a consistent and equitable approach to facilitating the review and processing of private development applications by outside consultants, the city council of the city of American canyon has adopted the procedures outlined below. In its simplest terms, this program involves the use of consultants to serve as support for city staff. Therefore, the relationship between the consultant and the project proponent shall be as if the consultant were in fact city Staff, notwithstanding the fact that the applicant is funding the consultant services. In order to ensure that the consultant and the applicant maintain an arms length relationship, the consultant will take direction from the city Manager, community Development Director or Public Works Director as may be appropriate. Any contact between the applicant and consultant shall be subject to prior approval by city staff.
727		The following procedures are to be considered guidelines and may be adjusted as necessary and appropriate, based upon any individual proposal, current staffing levels, and the nature and extent of other pending applications and projects.
728		1. Applicant enters into discussions with city Staff regarding a development proposal. Applicant attends Pre-Application meeting with Planning and various departments.
729		2. Staff will identify the discretionary permits, environmental review, and any other requirements necessary to process the application.
730		3. city Staff will estimate the time and resources necessary to process the applications within a reasonable time frame.
731		4. When necessary to meet reasonable processing time frames, outside consultants will be used to augment city Staff. If the city elects to use consultant services, the applicant shall pay the related city expenses including consultant costs plus overhead%.
732		5. Prior to the commencement of any work effort to process an application, the applicant shall agree to fully fund city Staff and outside consultants to facilitate the processing of development application.
733		6. The applicant will deposit the total deposit required for cumulative permits prior to Staff deeming the application complete and processing the applications. The community Development Director may reduce the initial deposit amount.
734		7. The city will maintain records of the amount of time and any funds spent on the processing, and use the deposit to reimburse the city General Fund and pay the consultant. The applicant is entitled to receive monthly statements detailing the amount drawn based upon time and expenses and the remaining balance upon request.
735		8. In the event additional funds are needed to complete the processing, the additional estimated amount shall be deposited prior to additional time or resources being expended on the processing.
736		Preliminary Environmental Review:
737		For Those projects that are either Exempt by Statute (Section 15260 of CEQA) or categorically Exempt (Section 15300), Staff will prepare a Notice of Exemption and file it with the county clerk within 10 days of project approval only if the applicant requests.

Service/Application	Fees	
	2019-20	Notes
738	For those projects which are subject to environmental review under the provisions of the California Environmental Quality Act, City Staff will contract with a consultant to prepare an Initial Study checklist to identify potentially significant impacts to the environment. In the event a Negative Declaration or Mitigated Negative Declaration is appropriate, Staff will circulate the documents in accordance with State law. If the city approves the project, city Staff will file a Notice of Determination (NOD) and any supporting documents with the county clerk and/or State Clearing House within 5 working days of the approval. The applicant is responsible for submitting the fees required by the State Department of Fish and Game and the county clerk for filling the Notice of Determination or Notice of completion to the city within 3 working days of the approval, or staff shall NOT be obligated to file the Notice.	
739	Environmental Review:	
740	The Initial Study will serve as the basis for preparing an adequate CEQA document, including a Negative Declaration (NegDec), Mitigated Negative Declaration (MND), Focused Environmental Impact Report or an Environmental Impact Report (EIR). All such documents for private projects shall be prepared by qualified consultants retained by the city at the applicant's expense unless otherwise approved by the community Development Director.	
741	A Request for Proposal (RFP) for the preparation of the Initial Study and environmental document, preparation and distribution of all notices, and preparing responses to comments will be distributed to one or more qualified consultants. City Staff will review the proposal submitted and determine the best qualified consultant.	
742	The city Manager may enter into a contract for Professional Services with the consultant(s) selected. The applicant shall remit the total contract amount plus the standard city overhead fee and required Fish and Game fees in advance of the consultant(s) receiving authorization to proceed.	
743	The primary consultant may retain sub-consultants such as Geotechnical Engineers, Traffic Engineers, or other specialists to address aspects of the proposal. Sub-consultant work shall be peer-reviewed as necessary. The costs for sub-consultants and peer review shall be included in the contract amount.	
	Each Consulting Services contract shall identify each task and work product to be performed, and the cost for each shall be clearly identified. In the event any task is not performed by the consultant or is subsequently deemed unnecessary, the applicant shall be reimbursed for tasks not performed upon completion of the processing
