**As an authorized representative of the applicant, I hereby consent by my signature below, that I understand the following:**

The service of processing an application for development of property in the City of American Canyon is of primary benefit to the applicant. The cost of processing an application is charged according to the hours spent by staff in reviewing and analyzing the project including checking plans, writing staff reports, preparing environmental analyses, notifying and responding to the public and attending public hearings. The applicant receiving the benefit from the service shall pay the cost of these services. Total cost varies according to the size of the project and the complexity of the issues involved. At the City's sole discretion, a consultant may process the application. Pursuant to City Council Resolution 2008-79 for development applications, the applicant will pay all costs for consultant services inclusive of any applicable "in-house" administrative costs. Project specific expenditures such as City Attorney services, postage for mailing public notices, advertising, etc. have been excluded from the hourly rates. These project specific expenditures will be billed "at cost" on a project by project basis to the applicant.

The deposit creates an open account to which processing time is charged. Processing charges will automatically be drawn against the deposit funds until the minimum balance is remaining. All service charges will be invoiced to the applicant on a monthly basis. Accompanying the invoice will be a statement, which will include a description of services rendered during the billing period. Payment is due within 15 days of the invoice. **If payment is not received within 7 working days after the invoice due date, all development activities will be suspended until payment is received.**

At the conclusion of the discretionary process, after full payment of all invoices is received, any remaining deposit amounts will be refunded to the applicant.
